RoboCup Humanoid League Technical Committee

Dear Sir or Madam:

The NUbots team have participated in the RoboCup leagues every year since 2002, and are dedicated to continue our strong contributions to the robotics field.

The RoboCup Technical Committee can be assured that the NUbots team are committed and have secured funding to attend the RoboCup 2019 competition in Sydney, Australia.

We also commit, as evident by our previous years of refereeing experience at RoboCup, to provide a person who has sufficient knowledge of the rules to referee throughout the competition.

Best regards,

Alex Biddulph
NUbots Team Leader
